

## 2019 BikeWalkKC Candidate Questionnaire

**1. Please share your vision for the future of transportation mobility in KCMO and how walking/biking/public transit would be important strategies to achieving that vision.**

**2. The arrival of scooters has shown now more than ever that there are many diverse and growing demands on limited public space for pedestrians, cyclists, and cars. How do you think the city should balance all of these needs to ensure safety and accessibility for everyone using public space?**

**3. Affordable housing and multimodal transportation are inextricably tied to one another. For many households, transportation is just as expensive, if not more, than housing. How should the City Council work to ensure an abundance of both without hindering one issue to make progress on the other?**

**4. KCMO recently updated its Bike Plan. It is both an ambitious and practical plan to connect the city, while supporting the City's goals for mobility, health, housing, equity, economic development, and sustainability. Residents are frustrated that previous plans have sat on the shelf due to lack of funding and prioritization, and the City has struggled to deliver funded projects. How would you align City budgets, policies, staff, and procedures to ensure the new bike plan hits the ground running with tangible, rapid results?**

**5. Active transportation is increasingly important across the KC metro area and around the country to support goals for connectivity, public health, economic development, equity, quality of life, and climate protection. As the economic and cultural hub of our region, KCMO is key to all of these goals. How would you use the City's position to provide regional leadership on transportation and mobility for the entire metro area?**

**6. Since the passage of the GO Bond, Kansas City has worked to address the backlog of requests to fix broken sidewalks. However, the City has had issues with regards to transparency of this process and ensuring funds are used where they are needed most, especially on the East Side. If elected, how will you work to ensure greater transparency and a process that pushes more dollars into these underserved communities?**

**7. With regards to multimodal transportation, what is one project you would like to see completed in your district?**
